A SMART
TREADMILL**

Runn...

Hassle-free performance tracking of real-time speed, distance, and incline with your favorite fitness app or wearable.

SIMPLE SETUP

1. Mount the Runn to the side of the treadmill with the included cradle.
2. Attach the 3 or 4 of the included sensors stickers at least 15" apart on the treadmill belt.
3. To record your speed, incline, and cadence, connect the Runn... to your favorite app or wearable over Bluetooth or ANT+.

MAIN FEATURES

BLUETOOTH & ANT+

Uses standard profiles for data transfer ensuring broad device and app compatibility. Bluetooth: FTMS & RSCS, ANT+: FE-C, Footpod

TREADMILL COMPATIBILITY

The Runn... is a universal design that attaches to most treadmills.

RUNN... TRACKING

The Runn... measures speed, cadence and incline during your workout.

USB OR BATTERY POWERED

Operating either plugged in or on battery, the lasts for up to 15 hours.

HEARTBEATZ SUPPORT

Easily log your treadmill workout with your Apple Watch by connecting with heartbeatz.
